**Tools & Methodologies:** Agile Development, Chrome Extensions Development, CI/CD pipelines

#### SOFT SKILLS

Team Collaboration | Problem-Solving | Communication | Creativity | Attention to Detail

### EXPERIENCE

#### FOUNDER & FULL STACK DEVELOPER

EH BRAND | APR 2024 – PRESENT

Built and launched the EH Brand website using Next.js, Tailwind CSS, TypeScript, and MongoDB.

Handled UI/UX design, SEO, and performance optimization, boosting traffic and engagement.

Created a custom content management and analytics dashboard.

## EDUCATION

### BACHELOR'S DEGREE IN ELECTRICAL AND ELECTRONICS ENGINEERING

SCIENCE VALLEY ACADEMY | AUG 2018 – JUL 2023

Graduated with a 3.22 GPA,

Graduation Project: **PV Home** – Intelligent Solar System Design Tool  
(Grade - Excellent)

## PROJECTS

### **PRIMENUMBER** - CORPORATE WEBSITE - NOV 17, 2024

Developed a modern website using Next.js, Tailwind CSS, and TypeScript, focusing on performance, responsiveness, and SEO.

Integrated Google Tag Manager and Google Analytics for user tracking.

Created a content management dashboard for easy updates and management.

### **ZEN TIME - CHROME EXTENSION** - SEP 21, 2024

Developed a productivity Chrome extension using React.js, Tailwind CSS, and TypeScript. Features include a Pomodoro timer, task management, note-taking, journaling, activity tracking, a timeline, and a music player.

### **EH** - BRAND WEBSITE - AUG 25, 2024

Built using Next.js, Tailwind CSS, and MongoDB. Developed a dashboard for order tracking, subscriptions, and notifications. Implemented Pinterest and Meta Pixel Tags for retargeting, boosting traffic. Enabled newsletter subscriptions to enhance engagement.

### **ALOSTAZ - MOBILE APPLICATION** - SEP 22, 2023

Developed with React Native, Node.js, and MongoDB, supporting Student, Teacher, and Parent registrations. Features include dynamic class scheduling, real-time updates, and attendance tracking. Parents can link accounts and receive class notifications via email.

### **PV HOME** – INTELLIGENT SOLAR SYSTEM DESIGN TOOL - OCT 15, 2023

Developed a user-friendly web app for designing On-Grid, Off-Grid, and Hybrid solar systems using the MERN stack. Optimized systems based on price, area, and power consumption. Created a dashboard for suppliers to Upload products. Successfully applied in designing off-grid systems for a hospital and Mosque.

### **STAMPEE - FRONTEND WEBSITE** - JAN 30, 2023

Developed a scalable e-commerce solution with the MERN stack, incorporating secure payment gateways and user-friendly navigation.

### **GIVACO - E-COMMERCE WEBSITE** - JAN 3, 2023

Developed a scalable e-commerce solution with the MERN stack, incorporating secure payment gateways and user-friendly navigation.

### **PORTFOLIO PROJECTS** - DEC 13, 2022

Created an interactive resume using Vanilla JavaScript and another with React.js, showcasing advanced front-end development skills.
